# Project Information

# Problem Statement and Goal

## Problem Statement

Regina lacks a localized database of information on it's progress towards meeting the 17 UN Sustainable Development Goals

## Our Goal

To create a website providing users with local data on Regina's development towards the 17 SDGs, that is simple, includes transparent data, and easily shareable.

# Envisioned Problems/Opportunities

## Problems

- Paywall on certain design ideas
- Lack of Time
- Limited Data

## Opportunities

- Ability to utilize our lecture/lab learned skills in a real world application
- Learn more about Regina's sustainability goals and how we can highlight them
- Raise awareness about Sustainability Issues in Regina

# Northstar & Carryover Customers

## Northstar Customer

Government Workers/Officials  
"Change makers", those who  
are able to utilize the data to  
make change on a large scale,  
and apply it in official and  
lawful capabilities.

## Carryover Customers

- NGO's
- Researchers
- Those interested in  
joining NGOs
- General Public
- Newcomers to Regina

# 02

## Website Demo

# Future Implementation

## Introduce Custom Infographics

If we had more time to work on the project, as well as the paid for version of the plug ins, we would have liked to introduced some form of a scrollable infographic section in the homepage to entice the user into reading about different issues

# 03

## Wordpress Configuration

# Theme: Astra

Astra is customizable Wordpress theme suitable for blog, personal portfolio, business website

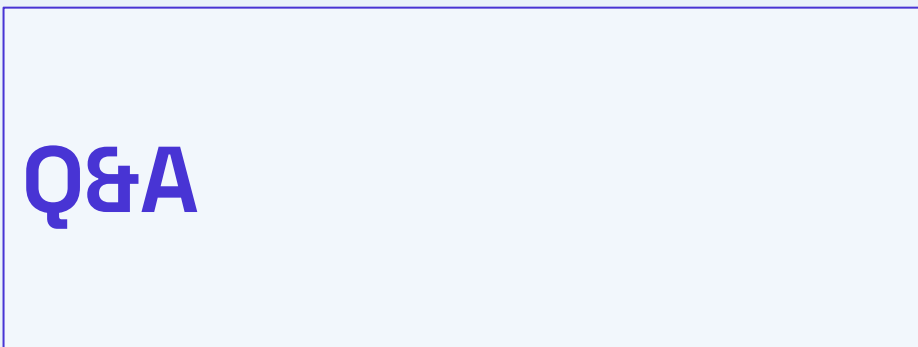

## Plugins:

- **Starter Template:** Provides templates to start off the website
- **Spectra:** Adds more customizations to Wordpress website builder
- **wpDataTables - Tables & Table Charts:** Creates responsive, sortable tables & charts from Excel, CSV or PHP.
- **WP Carousel:** Creates carousels, sliders, and galleries using images, posts, etc.
- **Cool Flipbox:** Creates flipboxes to add more interactiveness on the website
